

STORYTELLER CHILDREN'S CENTER  
*"Kindergarten Readiness for Santa Barbara's Homeless Children"*

---

February 9, 2018

Storyteller is so proud to be part of a community that has come together and rallied support in the wake of our recent disasters.

For several days in December, we were required to close due to air quality concerns. When we reopened, our teachers came by boat and train, in order to provide safe and consistent school services for our children and families. We met with families who had been affected, to assist with any of their challenges associated with the fire and debris flow. Our families know we are there to support them. Many thanks to community members who donated diapers and clothing!

We are all still here and still serving our community. During these times, our needs don't stop.
